

# PATH TO SUCCESS

We at Compass Engineering know that digitalization can be a tool for business growth.

However, going digital at any price is a losing strategy.

Compass Engineering leads to the goals of digital transformation in an optimal way. We create the foundation – engineering and IT infrastructure, which gives companies the ability to use resources efficiently.

To do this, we rely on the complexity of solutions, taking into account industry specifics, and the implementation of turnkey projects exclusively by our qualified team.

**Compass Engineering** is  
an Expert in Engineering  
and IT Infrastructure

- **10** years experience
- **50+** certified specialists
- **6** areas of work
- coverage: Ukraine, Central Asia and Eastern Europe
- **8** comprehensive industry solutions
- management system  
ISO 14001:2015, ISO 9001:2015
- project approach

## WHAT WE DO

Compass Engineering is setting the course for digital transformation goals.

To do this, we create industry solutions in which we combine our own expertise and products from different manufacturers.

The company develops and implements solutions to support digitalization along the entire value chain: processes – technologies – end users.

Compass Engineering has licenses and permits for all types of core activities.

# WHY COMPASS ENGINEERING

## All from one source

We provide a full cycle of implementation of complex high-tech solutions. From technology design to equipment operation and service, Compass Engineering takes responsibility for all activities.

## Employee qualifications

We have assembled a team of more than 50 certified professionals who share common values: mutual respect, democratic approach, responsibility.

## Own developments

We cooperate with market leaders and have the strength and competence to create our own solutions where the vision of global players needs to be customized.

## Management system and project approach

We have improved the management system (ISO 14001:2015 and ISO 9001:2015) and project management processes.

## Experience

We checked in practice the management approaches and technologies used. We continue to learn and improve every day.

## Engineering Infrastructure

- Electrical Solutions
- Ventilation and Air Conditioning Systems
- Audiovisual Complexes
- Structured Cabling Systems
- Building Management Systems (BMS)
- Technical and Service Support of Engineering Infrastructure

## Industry Automation

- Software and Business Solution
- Specialized Equipment

## Physical Security Systems

- Access Control Systems
- Video Surveillance Systems
- Video Analytics Systems
- Security Systems
- Fire Fighting Solutions

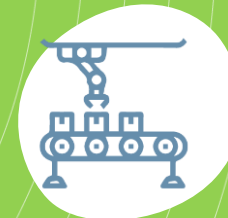

## Data Centers

- IT and Data Center Engineering
- Infrastructure
- Servers and Storage Systems
- Power Supply Systems
- Technical Security Systems
- Container and Modular Data Centers

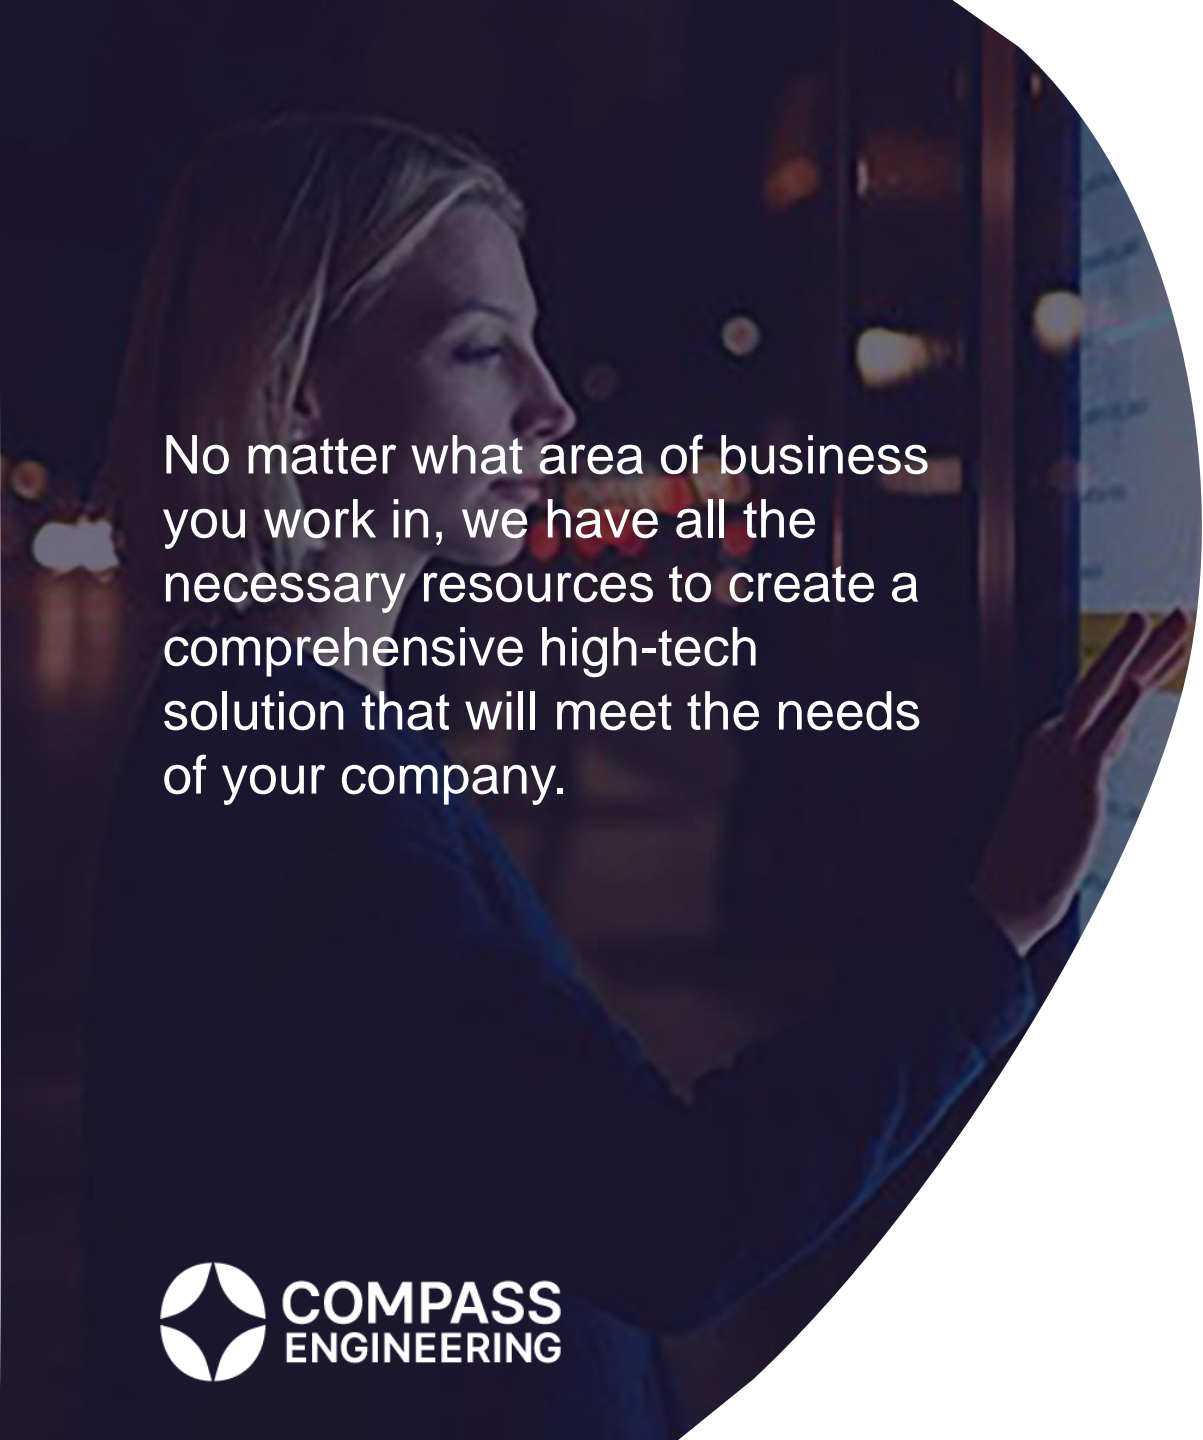

## Basic IT Infrastructure

- Network Infrastructure
- Server Infrastructure and Storage System
- Virtualization Systems

## Production of Electrical Equipment

No matter what area of business you work in, we have all the necessary resources to create a comprehensive high-tech solution that will meet the needs of your company.

## **The Company is an expert in working with the following industries:**

- industry;
- government sector;
- hospitality industry;
- financial sector;
- fuel and energy complex;
- transport and logistic;
- private and public medical institutions;
- real estate and retail.

# OUR APPROACH

Compass Engineering considers the company's IT infrastructure as an integral ecosystem.

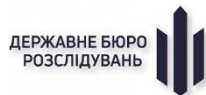

In our projects, we link the strategic goals of customers with the solutions necessary to achieve them.

Direct agreements with the world's leading manufacturers and official distributors allow us to provide the best conditions so that the added value from cooperation with us mainly has intellectual components: design, engineering and service.

# CLIENTS

The success of the implemented projects is evidenced by the conclusions of international expert organizations, in particular the Uptime Institute and Bureau Veritas, and confirmed by the positive feedback from customers.
